DRAINAGE FOR LIVEABILITY

7.30AM - 9AM | THURSDAY 27 APRIL | CROWN PERTH

Drainage assets such as linear channels and basins have traditionally been functional, fenced and/or hidden from sight. They serve an important flood control purpose but have the potential to provide much more value to the community if we look for opportunities to share the spaces around them. The presentation will cover the Water Corporation's new approach to management of its drainage assets via collaboration and cooperation with other government agencies, councils and developers.

Presentation by Suzanne Brown, Manager Drainage and Liveable Communities, to be followed by a panel discussion.

Please complete the registration form and email jolson@udiawa.com.au or fax to 9381 5968 by Wednesday 19 April 2017. Bookings for the event close on this date, unless sold out prior. Event queries to Julianne on 9215 3403 or jolson@udiawa.com.au.
